All Principals & Headmasters

GSSSs, GHSs and all Private Schools Distt. Bilaspur H.P.

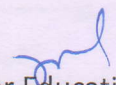

Sub: Regarding updation of all the three modules of UDISE+ viz. students, Teachers and Profile & Facilities.

Memo,

On the above cited subject it is to inform you that the Ministry of Education, Govt, of India, has opened UDISE+ portal for the year 2023-24 for updation of all the 3 modules i.e. Students, Teachers and School profile & facilities. GOI has provided unique national ID to each student and teacher which will be used for student tracking throughout his/her schooling journey and will remove the duplicacy.

From the past experience and by going through random checking it has been observed that many schools are not providing accurate information in UDISE and the heads of same schools are not aware about their school data reflected on UDISE portal. It is a serious concern and effects the planning and budgeting for education.

To assist data entry work, the users of UDISE portal may take help available at the link: www.samagrashiksha.hp.gov.in/homeContent/76/20. The visiting officer from office of DHE/DDHE can check the UDISE data physically, therefore, put accurate data in timely manner, so that the proper utilization of information can be ensured.

Subject: - Regarding updation of all the three modules of UDISE+ viz. Students, Teachers and Profile & Facilities.

Sir/Madam,

As you are aware about the importance of UDISE+ data in educational planning and implementations of various schemes. The Ministry of Education, Govt. of India, has opened UDISE+ portal for the year 2023-24 for updation of all the three modules i.e. Students, Teachers and School profile & facilities.

GOI had provided unique national ID to each student and teacher, which will be used for the student tracking throughout his/her schooling journey and will remove the duplicate student and teachers from schools. Now students and teachers would be shifted from one school to other with these unique codes, it will keep track of academic and professional performances.

Now only new students in pre-primary and class 1st will be added in UDISE+ and all the above classes students would be shifted from one school to other. Presently progression from all schools is complete, now data finalization/correction is going on. Also, School Profile & Facility Module and Teachers Module is open for data updation.

From the past experience and by going through random checking it has been observed that many schools are not providing accurate information in UDISE+, many head of the institute are not aware about their school's data reflected on UDISE+, it is a serious concern and effects the budgeting and planning under education.

To assist data entry work, many VC's and meetings are conducted from time to time, and many help videos addressing various issues have been prepared and available at the link: www.samagrashiksha.hp.gov.in/homeContent/76/20

You are requested to instruct all the schools (Govt. & Private) in your district to provide accurate data in timely manner, so that the proper utilization of information can be ensured. You all should check the UDISE+ data of school while visiting the schools and if any variation found, the appropriate action should be taken.
